This seminar will cover:

- **Comprehensive Verbal Skills Workshop:** HWC’s Verbal De-escalation Training focuses on understanding the cycle of tension/relaxation and calibrating the intervention based on the student’s needs and where the student is on the cycle. HWC also teaches a self-awareness model where staff is taught to monitor and control their reactions to provide better care and develop the ability to defuse situations through their own behavior and responses. The program then puts theory into practice in the form of role- plays. Physical Skills Training: Personal defense, use of personal space and blocking techniques
- **Personal Defense:** Includes the use of personal space, escapes, blocking techniques and 3rd person save methods. HWC is the only technology in the industry that teaches you how to protect both yourself and another person/student from harm.
- **Primary Restraint Technique®.** The PRT® is versatile, effective, painless, safe and easy to apply. Staff is positioned in the safest place possible; behind the student. The PRT conveys an immediate reassuring sense of limits and is very effective with autistic students.
- **Early Childhood: Pre-School and Early Elementary School Program.** HWC has been training nursery and preschool teachers and psychiatric hospitals serving children as young as three for decades. Go to our web site for more information on our nursery and pre-school program including our proprietary child holding method.
